Director's Desk

The field of Interventional Pulmonology continues to expand and develop at a rapid pace. IP Mentor is a series of workshops aimed at enhancing the skill set of aspiring Pulmonologists. The current 2-day workshop will focus on best practices in Rigid Bronchoscopy from basics to the advanced diagnostics and therapeutics. National and International experts will discuss on the basic aspects of Rigid Bronchoscopy and will also enlighten on disease specific interventions with case-based approach to learning.

The first day of the workshop is tailored to impart basic knowledge with respect to Rigid Bronchoscopy and associated modalities like Cryomodalities and hot therapies in Interventional Pulmonology with didactic lectures and workstations . On the second day, experts will focus on advanced aspects of Rigid Bronchoscopy and therapeutics with evidence-based approaches through didactic sessions and case based approach which would be followed by workstations on animal models. IP MENTOR workshop series is targeted to provide tangible benefits and networking opportunities to current Pulmonologists and also aims to enhance their skills through dedicated workshops.

We Look forward to seeing you
